

Class 2 - Forms

Name:

1 - Consider the robots and machines:

- Jav II from Jacto
- A fridge
- da Vinci Surgical System from Intuitive Surgical
- An automatic door
- Spot from Boston Dynamics

Identify the sensors and actuators on them (it's ok to use the internet for more information).

2 - Draw a possible ROS architecture for one of the ROBOTS from the previous exercise.

How interesting was this class?

- ☐ I don't know how I survived for one more class. ☐ I think I'm sleeping. ☐ I want to sleep.
- ☐ I'm happy to take this class, but I'm not sure if I have a good reason to be here.
- ☐ I liked the class and know I want to buy a drone for myself.

Can you talk more about it?

Any additional feedback?
